 khush239    Khush Shah    22uec122@lnmiit.ac.in    (+91) 9409235178

## Summary

MERN Stack Developer skilled in building responsive web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in frontend and backend development, secure API integration, and authentication. Strong in DSA and passionate about efficient, high-quality solutions.

## Technical Skills

**Languages:** C, C++, JavaScript, SQL

**Web:** HTML, CSS, React.js, Node.js, Express.js

**Database:** MongoDB

**Core:** OOPs, DBMS, Data Structures, Operating Systems

**Soft Skills:** Analytical Thinking, Technical Communication, Problem Solving

## Coding Profiles

**LeetCode:** Khush2394

## Education

**LNMIIT Institute of Information Technology (LNMIIT)**, Jaipur 2022–2026  
B.Tech. in Electronics and Communication Engineering — CGPA: 6.66/10

**Sheth C.N. Vidhyalaya**, Ahmedabad 2022  
Class 12 (GSEB) — 72.46%

**Sheth C.N. Vidhyalaya**, Ahmedabad 2020  
Class 10 (GSEB) — 86.67%

## Projects

**Full Stack Car Rental Booking App**  May–June 2025  
*React.js, Node.js, MongoDB, Express, HTML, CSS, JWT Authentication*

- Built a Car Rental Web App with secure user login using JWT and role-based access for users and admins.
- Developed dynamic UI with React Hooks and React Router DOM for smooth navigation.
- Users can search/filter cars, view details, reviews, and manage bookings; admin dashboard tracks cars, bookings, and pending requests.
- Integrated Axios for API calls, Express for backend, and MongoDB for storing cars, bookings, and user data.
- Designed a responsive interface with real-time updates for seamless booking and management experience.

**URL Shortener Web Application**  Mar–May 2025  
*React.js, EJS, Node.js, MongoDB, Express, HTML, CSS*

- Developed a URL Shortener Web Application with secure user login.
- Users can generate short URLs that redirect to the original page and track the number of visits per link.
- Main page displays all generated URLs along with their visit counts in a clear dashboard.
- Implemented MongoDB to store URLs, user data, and visit statistics for efficient management and retrieval.
- Designed a responsive interface for smooth navigation and real-time updates on URL analytics.

## Positions of Responsibility

**Robotics Club - Pheonix, LNMIIT** Team Member  

- Designed and built robotic systems for competitions and in-house projects.
- Applied core engineering principles to solve real-world robotics challenges.
- Collaborated in teams and participated in workshops to enhance innovation and technical skills.

**Mess Committee - COSHA, LNMIIT** Senator  

- Planned balanced, cost-effective menus through collaboration with students, staff, and vendors.
- Ensured food quality and handled grievances effectively.
- Managed vendor coordination and budgeting to maintain service and financial efficiency.
